WATERFRONT FACILITIES

#### **THE PORT IN PERSPECTIVE**

The port of Philadelphia is strategically located in the geographic and marketing center of the Eastern Industrial Corridor with accessibility to all major United States markets making it an ideal import, export and distribution point. The port which also includes Camden, New Jersey and Wilmington, Delaware handles 134,000,000 tons of water-borne cargo each year and supplies unsurpassed port services for the international marketer. Augmenting this versatile port's array of facilities is the East Coast's only rail mounted combination heavy lift and container crane capable of lifts up to 375 tons.

# *Ports of Philadelphia*

## PHILADELPHIA, CAMDEN, WILMINGTON

About the Cover . . .

"Bird's Eye View of Philadelphia in the 1850's. Note the Old Navy Yard to the left and the markets on Market Street. Steam vessels were beginning to supplant sailing ships."

### PHILADELPHIA . . . THE CENTER OF AMERICA'S EASTERN INDUSTRIAL CORRIDOR

This book, published by the Philadelphia Port Corporation with the assistance of the Delaware River Port Authority, contains aerial photographs showing the Port's Marine Terminals, as well as waterfront property located along the banks of the Delaware Estuary and its tributaries, including those marine facilities within the cities of Philadelphia, Camden, and Wilmington. Identification and related information has been inserted on the photographs.
